IF YOU WANT TO ENJOY THE
EXCLUSIVITY OF YOUR PATIO OR
GARDEN WITHOUT BEING DISTURBED
BY THE WIND OR NEIGHBOURS,
THEN THE KERBON PRIVACY WALL
OFFERS YOU THE PRIVACY YOU
ARE LOOKING FOR. THE KERBON
PRIVACY WALL GIVES YOUR OUTDOOR
SPACE A CONVINCING NEW DESIGN.
PRIVACY IN ITS MOST BEAUTIFUL
FORM.

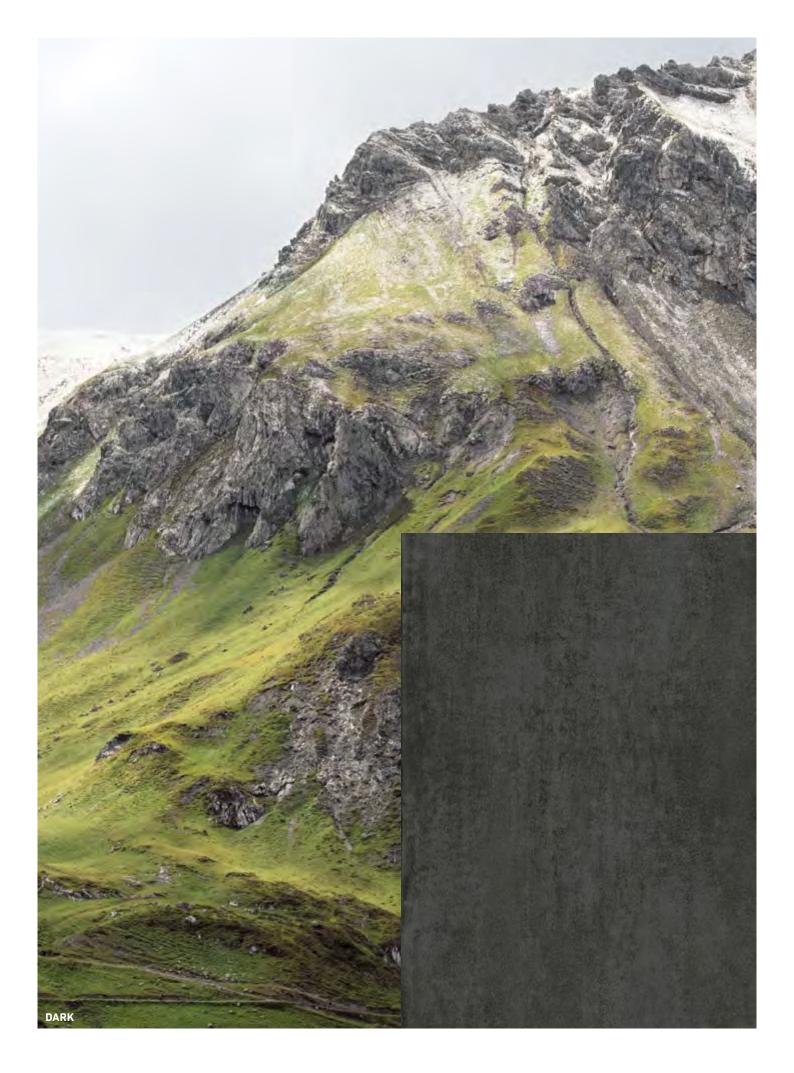

Kerbon is not just a visually attractive privacy screen and windbreak. With its ceramic finish and a material thickness of 14 mm, the freestanding Kerbon privacy wall becomes a standalone design object – noble and original.

innovation 4

EXCEPTIONAL DESIGN. NOBLE FOR ETERNITY.

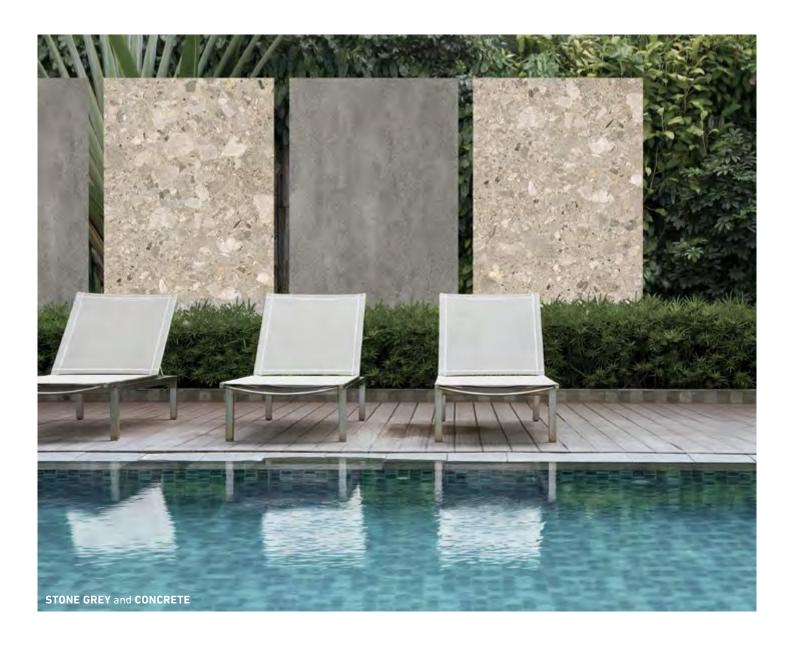

INNOVATION CAN BE SO BEAUTIFUL.

designs 8

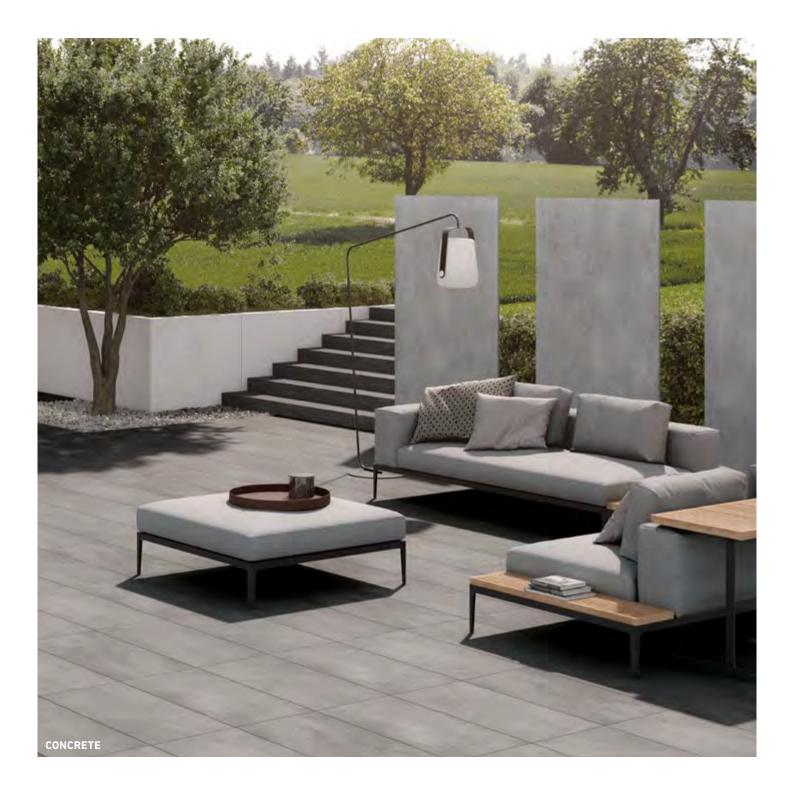

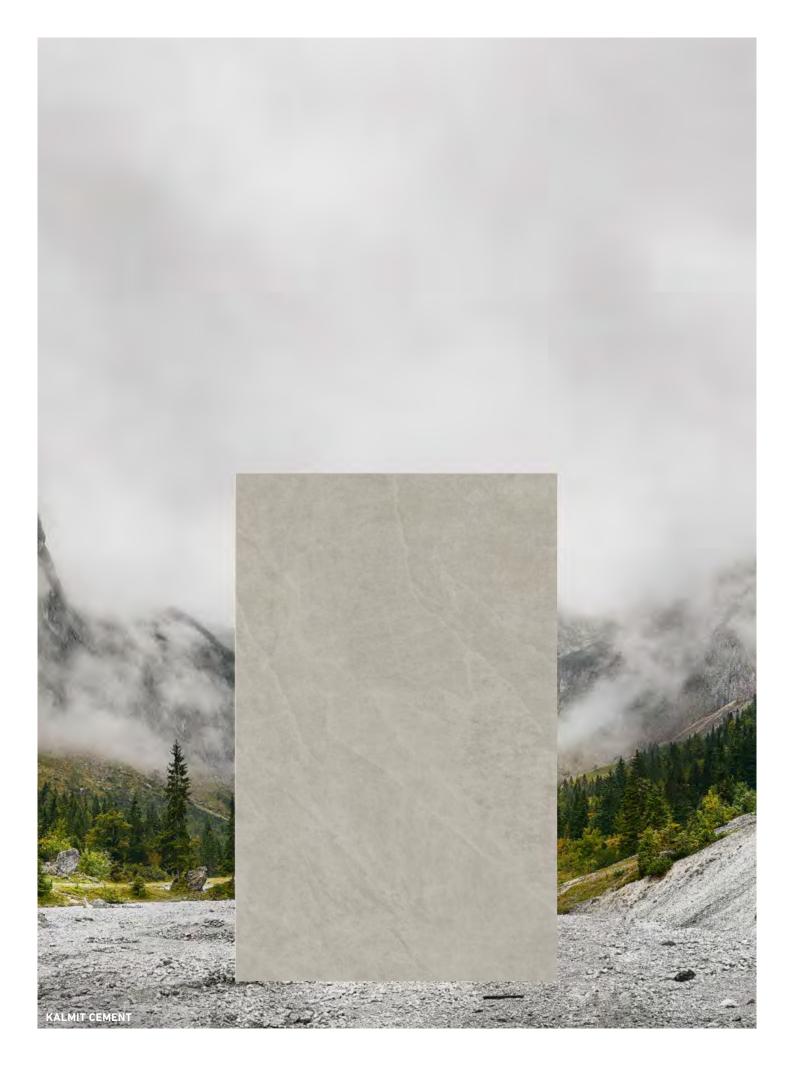

Kerbon is a completely new generation of ceramics. This new material was developed in a special fusion process, which combines ceramic and Solid Layer, opening up totally new design possibilities. The Kerbon privacy wall comes in a variety of colours and designs, light and low-maintenance yet solid and long-lasting, reflecting the characteristics of your home, patio and garden. SOLID, WEATHERPROOF, LONG-LASTING.

characteristics 10

A NEW GENERATION OF CERAMICS.

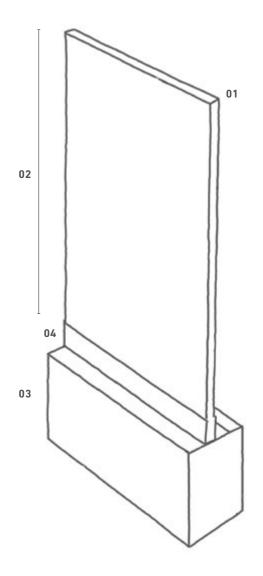

SECURE. SIMPLE. BEAUTIFUL.

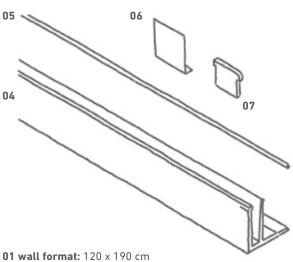

The Kerbon privacy wall is firmly anchored in a mounting block without the need for any other braces or additional securing. Thanks to this anchoring, slim material structure and uniformly even surface, it looks fascinatingly light whilst having maximum stability and application safety.

02 viewing height: 180 cm

03 foundation: 120 x 60 x 30 cm

04 aluminum block: 120 x 11 x 30 cm

05 rubber seal

06 element shoes

07 counter wedge

08 placement hole: ca. 50 mm

09 height aluminum block: 118,5 mm

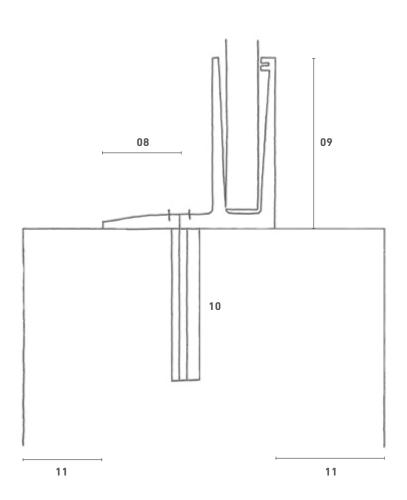

10 hole depth: at least 105 mm

11 aluminum block indented: at least

50 mm back and front

A CONNECTION FOR ETERNITY.

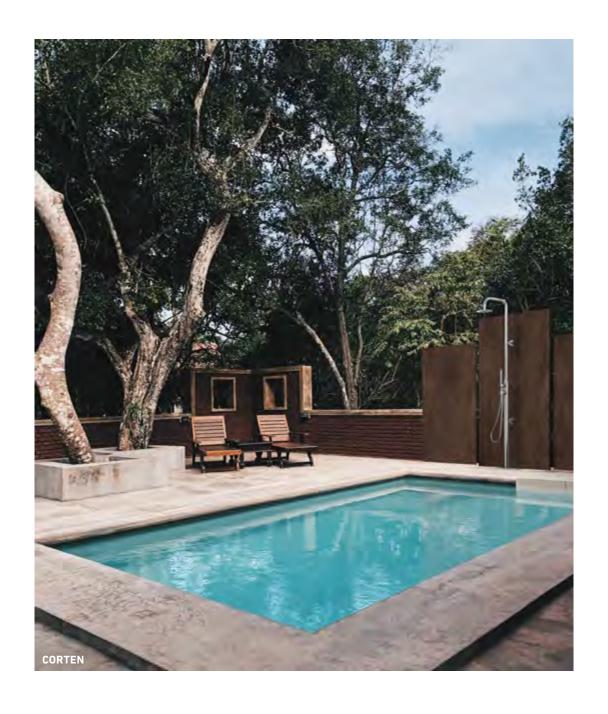

01 CERAMIC LAYER 6mm 02 SOLID LAYER 03 CERAMIC LAYER 6mm

Perfectly coordinated ceramic layers lend the surfaces a contemporary aesthetic. The specially developed Solid Layer, which bonds the two elements together, ensures the safety of the application when exposed to extreme wind loads and hydrothermal effects. Kerbon is a laminated safety ceramic which can effortlessly withstand winds in excess of hurricane force 12. Tests have verified this new dimension in breakage resistance, durability and flexibility.

material structure

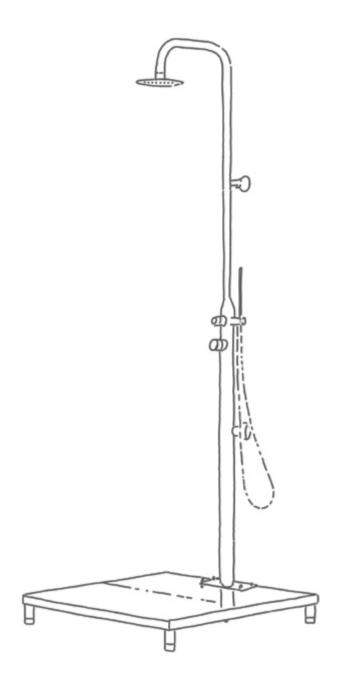

23 garden shower

Kerbon is perfect for the private SPA in your own outdoor area. Because privacy is naturally the order of the day here. And the tile is the material that has established itself in wet areas with good reason. The shower itself complements the classy ceramic privacy wall with a high-quality stainless steel design. The drain pan of the shower system can be individually matched to the garden design and the associated Kerbon surface with fine stoneware elements from the Steuler tile range.

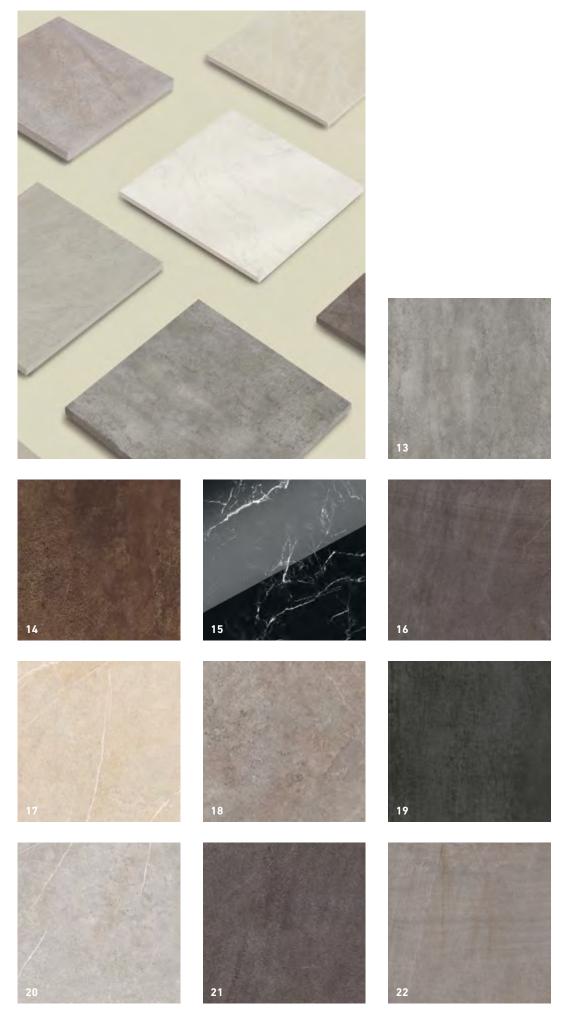

REFRESHING. FOR BODY AND MIND.

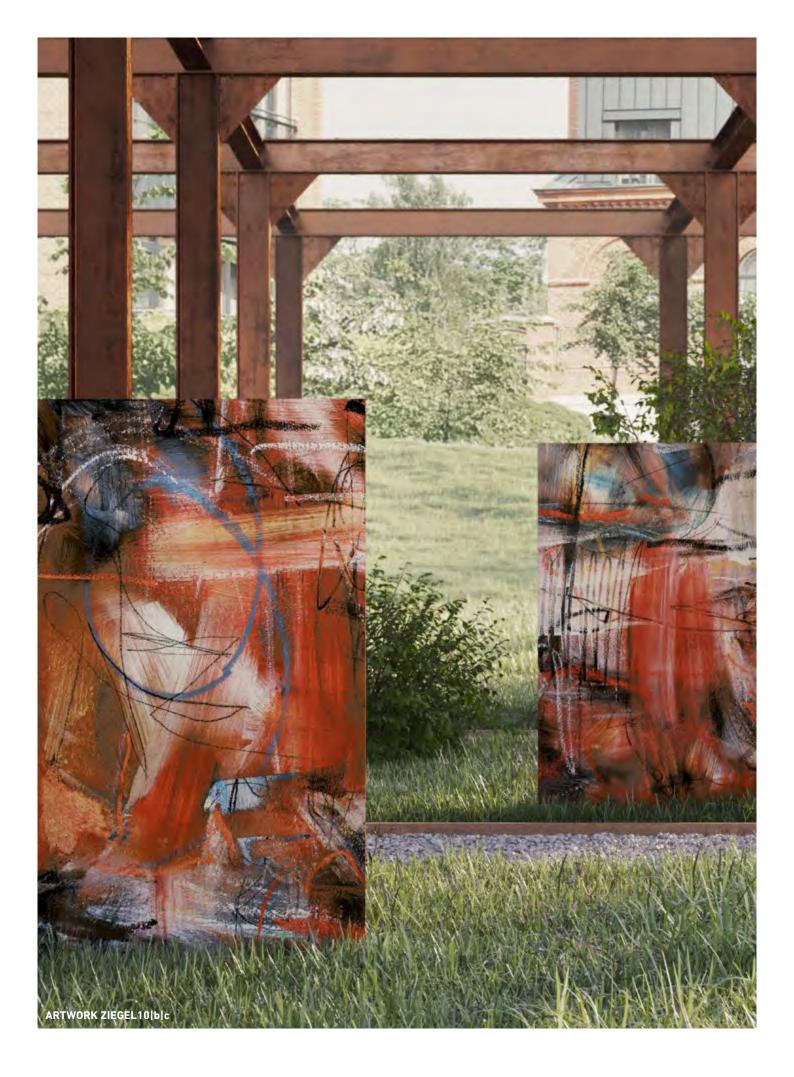

Kerbon is a state-of-the-art ceramic privacy screen which introduces a totally new kind of material, providing an exceptionally elegant system for sophisticated garden and patio design. The Kerbon privacy wall is available with special ceramic finishes - from minimalist concrete to exclusive marble. The ceramic element can have a uniform effect with its nuances of colour or be used as a conscious contrasting design element.
